

About HMGMA

HMGMA is the abbreviation of Hyundai Motor Group Metaplant America. It is Hyundai Motor Group's first dedicated EV mass-production plant and is an innovative plant with cutting-edge production technology applied.

Position Summary:

[Stamping shop Process Management]

- Support the Stamping department by repairing and maintaining automotive press stamping dies. Perform complex die repairs and modifications (stamping die repair, die spot, design changes. etc.); identify concerns and recommend countermeasures. Perform corrective, scheduled, and preventive maintenance on die equipment.

[Essential Functions]

- Review Troubleshoot die performance in stamping press to resolve or enhance form-ability issues.
- Perform preventative maintenance on stamping dies according to standardized procedures.
- Perform preventative maintenance on dies between production runs.
- Weld and hand grind tool steels to meet die specifications.
- Perform machining and fabricating on stamping dies for repair or improvement.
- Monitor completed repairs for continuous improvement.
- Support tryout of new dies in press line equipment. Conduct test runs with dies to ensure that parts meet specifications, making adjustments as necessary.
- Meet repair and preventative maintenance (PM) schedule times to maintain daily stamping production.
- Troubleshoot and correct quality issues on press line.
- Maintain and continuously improve quality on all stamping parts including stamping panels.
- Communicate with all levels of management on die issues and die repairs as necessary to maintain production schedules.
- Operate overhead crane to load, unload, lift, position, and insert dies in press on a daily basis.
- Perform tig and stick welds, use hand grinders, run surface grinders, manual mill, manual lathe, try out press, and basic mathematics.
- Read and study blueprints or specifications to plan sequences of operations for fabricating or repairing dies.
- Promote safety continuously; solve problems quickly to improve safety, quality, and productivity of stamping dies.
- Position requires job rotation to different shifts and maintenance jobs within the plant.

- Position requires the ability to work overtime in excess of 40 hours per week.
- Administer, coordinate, and comply with all Business Management Systems (BMS), Environmental Management Systems (EMS), and Safety Management Systems (SMS) requirements.
- Meet all other requirements as assigned.
